

Adams & Moore co-hosts Service Operational Vessel Day

21/05/2024

On 15 May 2024, in partnership with CSO Shipbrokers, Adams & Moore hosted the first event dedicated to the SOV (Service Operational Vessel) market.

This was an opportunity to bring together stakeholders from the owning and chartering communities. Presentations ranged from an overview of the commercial market and an outlook on new building, to legal issues, technical innovation and an open discussion on vessel service expectations. Adams & Moore partners Tom Adams presented on the legal challenges for newbuilding and Tony Concagh on SOV charterparty terms.

We wish to thank all those who attended and participated in the many lively debates throughout the day. We would especially like to thank our speakers and panellists, Will Mitchell -CSO Shipbrokers, Hugo Oyen – Uptime International AS, Rebecca Belmer - Damen Shipyards, Steven Bolton - Renew Marine, Michael Gordon - North Star Shipping, Steve Drysdale - Bibby Marine, Håkon Vevang - Edda Wind and Jacob Lykke Kjeldsen – Esvagt.
